

## PLAN COURT FIGHT ON VOTING MACHINE

Estimate Board to Refuse Funds and so Delay Use Perhaps for Year.

City officials plan a fight against the voting machines selected by Secretary of State John J. Lyons. It was learned last night a court action may test the right of the State to impose machines on New York City. Members of the Board of Elections believe the delay may stave off the introduction of the machines for at least another year.

Mr. Lyons selected the automatic voting machine made in Jamestown, N. Y., when the Board of Elections failed to agree on a type. Under the law if the contracts are not let by May 15, the Secretary of State must make contracts. To get the funds, however, he must go to the Board of Estimate. This clause is expected to provide the opportunity for the court fight.

He is survived by his wife.

NOTHING more simple or more charming for summer day wear could be found than these straight-line slip-on frocks of crepe de Chine. Another has rows and rows of drawn-work forming a panel design—excellent for wear over a pastel-colored slip. These French frocks may be had in white, grey, rouge, caramel, Nattier blue and navy.
